# GREEN AUDIT REPORT (2023-24)

## Of

### SIR K. P. COLLEGE OF COMMERCE

#### Executive Summary

*"Green is the prime colour of the world and that from which its loveliness arises."*

A nation's growth starts from its educational institutions, where the ecology is thought as a prime factor of development associated with environment. A clean and healthy environment aids effective learning and provides a conducive learning environment. Indian educational institutes have become more sensitive to environmental factors and more concepts are being introduced to make them eco-friendly. On this background it becomes essential to adopt the system of the green campus for the institute which will lead for sustainable development. To preserve the environment within the campus, various viewpoints are applied, thereby addressing various environmental issues and promoting energy savings; recycle of waste, proper waste management, water reduction, water harvesting etc. The activities pursued by colleges can also create a variety of environmental impacts.

Environmental auditing is a process whereby an organization's environmental performance as well as environmental consciousness is evaluated against its environmental policies and objectives. Green audit is defined as an official examination of the effects a college has on the environment. As a part of such practice, internal environmental audit (Green Audit) is conducted to evaluate the actual scenario at the campus.

In continuous process with the green audit carried out in previous years for Sir K. P. Commerce College, some activities were suggested on Environmental Days so as to create awareness and percolate the sensitivity towards environment to create responsible society.

We are happy to submit this green audit report to the Sir K. P. Commerce College authorities as a part of continuous process. It was observed that the management, Principal, IQAC committee, Campus Development Committee have put best of their efforts towards the suggested activities.

  
Dr. Mehali J. Mehta  
Green Audit Coordinator,  
Ph. D – Environmental Engg.  
Associate Professor-Civil Engg. Dept.,  
Sarvajani College of Engg. & Tech., Surat.

## 1. Various Initiatives taken by college:

(a) **Rainwater Harvesting:** Water harvesting system is installed in the campus and the collected water is used to water the plants in the campus.

**Incinerator in Girls' Common Room:** An incinerator is installed in the girls' room.

**Following Green Protocol:** We facilitate our invited guests with green plants /books.
